The Fund for the Relief of the Destitute and Suffering.

List of the New Contributors—The Appeal Meeting with a Liberal Response.

The fund for the relief of the destitute of this city is growing.

It now amounts to about \$125 cash, nearly 250 bushels of coal, a barrel of flour and twenty-five loaves of bread.

The temperature this morning was again as low as 10° below zero, and as long as this weather lasts there is bound to be some suffering among the unfortunate classes of every city.

Let the charitably-inclined open their hearts and pocket-books and relief will be extended.

Four or five more families who are suffering for fuel and the necessities of life were reported to this office this morning.

The BULLETIN wants it distinctly understood that this is not the BULLETIN's relief fund, and we do not wish it to be regarded as an effort to advertise ourselves.

The one object in view is to afford relief to those who are needing it, and an easy and quick way to secure a fund for this purpose is through the press, as all know.

All contributions will be properly distributed, and accounted for in due time. Let the good work continue.

AN exchange cautions its readers against biting at puzzle pictures and word puzzle advertisements, which promise big sums to the person who gives the correct solution. In most every case these advertisements are rank frauds. Apparently so easy to solve that a child could read them, they either contain a catch of some kind, or the advertiser simply pockets the money you are required to send with each solution, and you never hear any more of it.
